

## Youth Programs Verification of Eligibility

*(to be completed by the Youth Programs Director (or designee)/Guard or Reserve Representative)*

Please conduct a final verification of the youth/teen's eligibility for participation in Space Camp. Verification can be done via verbal contact or written certificates, etc. For verifying eligibility recommend using the ID card when available.

### Verification of Eligibility:

Youth Programs Director/Designee: Please verify all areas of application on participation and verification signature. Indicate date of participation verified and with whom you spoke if documentation is not available. Verification includes any documentation submitted and could include verbal contact if necessary.

School Extracurricular/Leadership:	Date:	Verified By: <input type="checkbox"/> Certificate <input type="checkbox"/> Verbal Contact

**Prior to making a recommendation, please conduct an interview with the applicant using the following interview questions and provide written synopsis of responses.**

Interview questions (pick 2):

- Why would you like to attend Space Camp?
- The Space Shuttle is schedule to retire in 2010 and NASA's next human spaceflight vehicle, the Orion Spacecraft, is scheduled to begin flights in 2015. This would mean that for 5 years the United States would not have any of its own human flights into space. Do you think NASA should extend the Shuttle program? Explain your reasons.
- If you could use the Hubble Space Telescope to study anything you waned, that it is capable of, what would you use it for? What objects would you look at? What would you study? What would you hope to find?

**Recommendation from Youth Programs Director or designee/Guard or Reserve Representative on applicant:**  Recommended  Not Recommended
