

Become a Certified Family Child Care (FCC) Provider

**Are you interested in serving our military community?
Why not consider becoming a certified Family Child Care
(FCC) Provider and opening your home to children.**

**In order to provide child care from your home, you must
be certified through the FCC Program. Anyone providing
regularly scheduled child care, exceeding 10 child care
hours* per week must be licensed.**

***Child care hours are calculated by adding each child's total
hours of care.**

**For more information on becoming a certified provider,
contact Rose Lucero, FCC Coordinator at 969-6012
(office) or 797-6174 (cell).**

I am looking forward to meeting you!
